

# TAGU

the missing piece

The electric fireplace collection

## The story

TAGU is not a corporation. It is a group of friends who are truly passionate about their work and what they do. TAGU is a manufacturer specialized in electric fireplaces and was founded by Bogdan Bot and Marian Popescu in the cold winter of 2014.

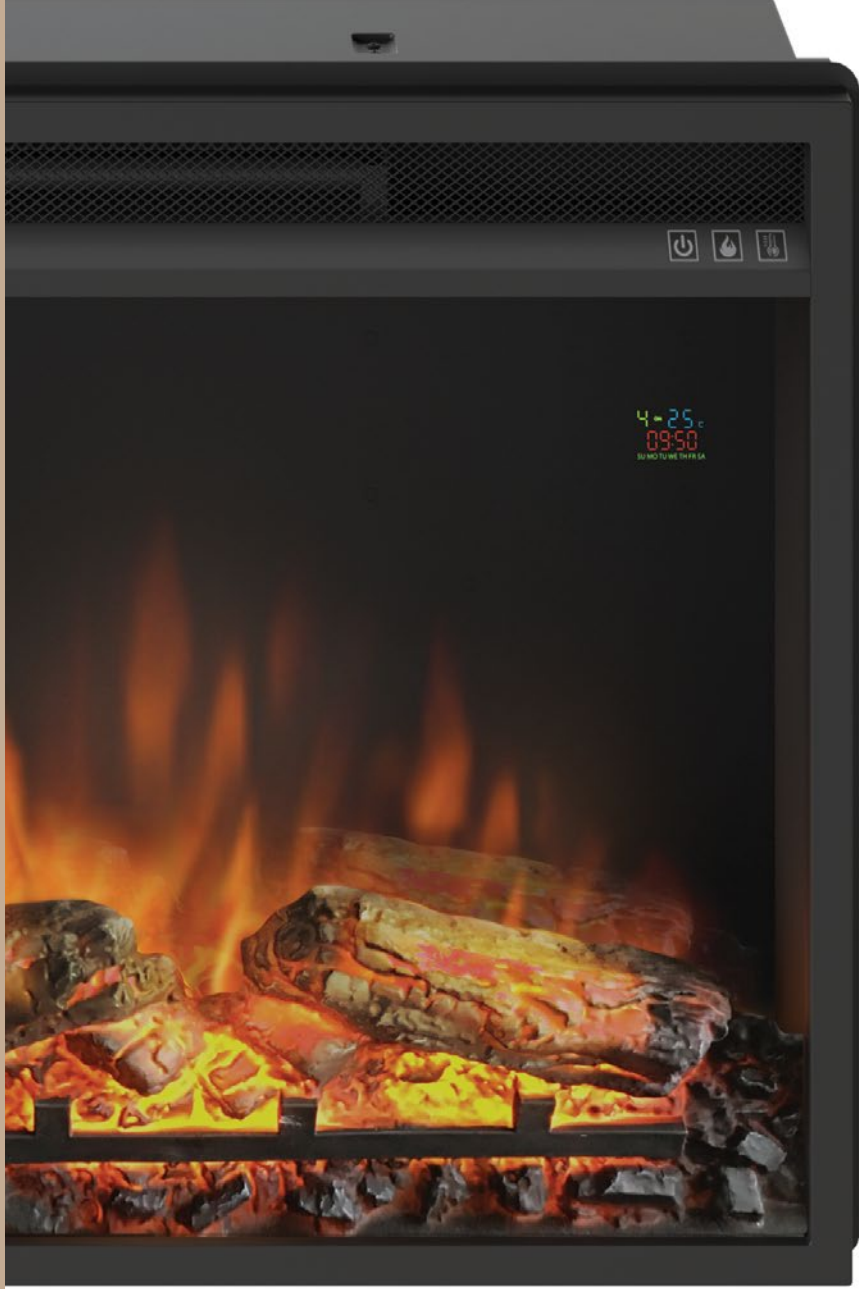

All the magic takes place inside our headquarters, located in Oradea and Cluj-Napoca, Romania. From here, we run all operations: design, manufacturing, logistics and finally distribution.

Each TAGU product is both our pride and our responsibility. We strive for perfection and are obsessed with every detail to ensure that everything is efficient, relevant, user-friendly and will stand the test of time.

Over the years, we have been listening to our customers and used their feedback to improve our products. As a result, our mantels are finished using premium wood veneer, can be easily assembled in less than 30 minutes and are packed according to ISTA 3A standards.

# POWERFLAME

TECHNOLOGY

# POWERFLAME FIREBOX

23PF1A

The ember bed and logs are specifically designed to maximize the flame effect, which is now brighter than ever. Our flame effect runs on 10W, which is less than the energy consumption of a light bulb.

## PLUG&PLAY BUILT-IN ELECTRIC FIRE

The missing piece to your fireplace project.

### Easy to install

In furniture or wood fireplace mantels. No extra hardware required.

### Slim design

Having a depth of only 15 cm, the TAGU PowerFlame firebox can be easily framed into masonry fireplaces or walls using the optional FISK-23 Installation Kit.

## 7-DAY TIMER SAVES ENERGY

Eco-friendly and budget-friendly.

### The right temperature at the right time

Set the heating schedule for each day of the week and enjoy a warm room whenever you'd like.

### Precise temperature control

Stay comfortable while saving energy thanks to the built-in digital thermostat.

### Open Window Detection

If the window is open or the temperature suddenly drops, the TAGU PowerFlame firebox automatically stops and takes care of the environment.

### Hidden LED Display

You'll be able to see all the settings, which will disappear after one minute.

## 1500W HEATER INSIDE

Powerful yet silent

### Whisper quiet

It's the most quiet heater we've ever developed and can warm rooms up to 37 square meters.

### Sleep Timer

At night, use the Sleep Timer feature and fall asleep in a cosy ambiance.

### All-season fireplace

The flame effect can work with or without the heat, so you can enjoy your fireplace year round.

## ULTRA-BRIGHT FLAME EFFECT

Perfectly visible during day or night.

### Adjustable flame brightness

Bright enough in a summer day or enticingly subtle for those cosy winter nights.

### Energy Saving LED

The flame effect runs on 10W, which is less than the energy consumption of a light bulb.

### Powerflame

Ember bed and logs are specifically designed to maximize the flame effect, which is now brighter than ever.

## REMOTE CONTROL

Control the fireplace remotely

### Multifunctional Remote Control

Control all functions with the included remote control.

## FIREBOX SPECIFICATIONS

Width (mm)	600
Height (mm)	503
Depth (mm)	150
